

Ethical and Environmental Sustainable Sourcing

Cecure Intelligence Limited is committed to conducting business responsibly and ensuring that the organisations we work with share our commitment to ethical, environmentally responsible, and transparent practices.

As a technology services provider, we recognise that responsible sourcing is an important part of building sustainable partnerships and maintaining trust across our supply chain.

Responsible Supply Chain

Cecure Intelligence Limited expects its suppliers and partners to operate in accordance with applicable laws and to maintain ethical labour practices and responsible environmental standards.

We seek to work with organisations that demonstrate integrity, respect for human rights, safe working conditions, and responsible environmental practices.

Environmental Responsibility

Cecure Intelligence Limited systematically incorporates sustainability considerations into our procurement lifecycle. We actively prioritise suppliers who share our commitment to responsible business practices, focusing heavily on energy-efficient cloud hosting, responsible e-waste management (WEEE), and the reduction of our digital carbon footprint.

Ethical Business Conduct

Cecure Intelligence Limited maintains a zero-tolerance approach to bribery, corruption, and unethical business conduct. Suppliers and partners are expected to uphold similar standards of transparency, integrity, and accountability.

Responsible Technology and Data Governance

As a provider of cloud and technology services, Cecure Intelligence Limited prioritises working with vendors that demonstrate strong information security practices, responsible technology development, and sound data governance.

Continuous Improvement

Cecure Intelligence Limited continuously reviews its sourcing practices to ensure alignment with evolving regulatory expectations, sustainability standards, and responsible business practices.

Supplier Expectations

Suppliers are expected to comply with Cecure Intelligence Limited's Supplier Code of Conduct and uphold ethical, environmental, and responsible business practices consistent with our standards.

Enforcement

These commitments are actively enforced through our ISO 14001 and ISO/IEC 27001 certified Integrated Management System (IMS) and our mandatory [Supplier Code of Conduct](#).
